INTRODUCTION

Education is one of the most powerful instrument which can modify the human behaviour into desirable way. It develops every aspects of human being such as physical, mental, social, spiritual, emotional, etc. It can be witness from the history of the world that the root cause of every changes in human life is education. Infact it is a part and parcel of the human life which continues throughout the life till death.

Meaning of Education

Education is the process of modification of human behaviour. It is the process of nourishing the qualities of human being into desirable ways and to bring out the best out of the child.

ETYMOLOGICAL MEANING OF EDUCATION

The word Education has been derived from the following Latin words:

1. Educare which means 'to nourish', 'to bring up', 'to raise'.
2. Educere, which means 'to bring forth', 'to lead out', 'to draw out'.
3. Educo, where 'E' means 'out of' & 'Duco' mean 'I lead'.

Definition of Education

Swami Vivekananda

“Education is the manifestation of the divine perfection, already existing in man”.

Rabindranath Tagore

“The highest education is that which does not merely give us information but makes our life in harmony with all existence”.

John Dewey

"Education is the development of all those capacities in the individual which will enable him to control his environment and fulfil his responsibilities”.

Heinrich Pestalozzi

"Education is natural harmonious and progressive development of man's innate powers."
